

HANDOVER OF DEFIBRILLATORS FOR LIBANUS AND LLANSPYDDID

On Thursday 15th June two defibrillators were officially handed over to Libanus and Llanspyddid by Brecon Lions Club, who have generously financed them for the communities.

The Libanus defibrillator has been housed in the porch of the Mountains Nursing Home where it is accessible at all times for use by the community. The Llanspyddid Machine is housed in a specially constructed cabinet just outside the Church Field.

Please watch this website and the village notice boards for details of training sessions that will be arranged to train people in using the defibrillators.
